

# 2025 american energy storage exhibition

Intersolar & Energy Storage North America (IESNA), the premier tradeshow and conference for solar and storage professionals, today opened registration for its February 25-27, 2025 flagship event at the San Diego Convention Center in San Diego, CA. Building upon previous years, IESNA 2025 will feature an expanded exhibit hall, curated conference ...

The expo highlights the latest technologies, products, and solutions in PV and energy storage. Attendees can explore innovations, learn from industry experts, and connect with others in the...

With 24 sessions, one full-day workshop, and two half-day workshops, the 2025 conference program will explore grid resilience and reliability improvements, advancements in residential, commercial...

Dates: Tuesday, February 25, 2025 - Thursday, February 27, 2025. Venue: San Diego Convention Center, San Diego CA, United States. Intersolar North America is the premier solar event that connects innovators and decision makers in the solar + energy storage industry. With a dynamic exhibition floor and robust conference program, Intersolar North ...

With 24 sessions, one full-day workshop, and two half-day workshops, the 2025 conference program will explore grid resilience and reliability improvements, advancements in residential, commercial, and utility-scale solar deployments, and the continued evolution of energy storage technologies.

IESNA 2025 will deliver a nationwide look into solar, storage, EV charging infrastructure, and manufacturing at federal and state levels. Professionals also seeking Texas-specific insights and solutions are encouraged to register for our inaugural regional event (to be held November 19-20, 2024 in Austin, TX).

The Energy Storage North America 2025 is North America's premier energy storage event, showcasing cutting-edge solutions in energy storage and renewable integration. The exhibition hosts over 550 innovators and experts from across the energy storage supply chain, providing insights into the latest technologies, policy updates, and industry trends.

Everything from solar, energy storage, hydrogen, microgrids, EVs/charging and infrastructure, wind energy and more. Hosted by the Solar Energy Industries Association (SEIA) and the Smart Electric Power Alliance (SEPA), the RE+ 2025 will offer a unique opportunity for the entire renewable energy industry to collaborate and grow business.
