2- Use Child-Resistant Cabinets And Drawers. Cabinets should help to keep appliances, glass, and food out of the hands of children. Cabinets can be custom-made before installation to be harder to open. You can also create cabinets with locks that can protect things longer than just while your children are young and can help your whole family.

And if the straps are flexible, little hands can get into the bottom drawer as well as the top one. That can also be a recipe for trapped fingers. But they can work if the strap is flexible and you can get to the side of the drawer unit. One end of the strap can then go on the front of the drawer and the other on the side.
