The locomotive is compatible with both AC25kV and AC15kV power supply systems, and the on-board energy storage module enables the locomotive to transport in the short-distance wireless zone, which can meet the interconnection and operation needs of many European countries and provide customers with efficient, economical and environmentally ...

CRRC Zhuzhou estimates that the use of hybrid traction will produce a 30% energy saving compared to a conventional locomotive. As well as enabling 80% of the braking energy to be recovered, the lithium battery will allow the diesel engine to be switched off when idling and will provide emission-free operation in tunnels.

On July 3rd, in Vienna, Austria, the Vice President of T&V NORD Group, Dr. Stefan P&ting, presented CRRC Zhuzhou Locomotive Co., Ltd. (CRRC ZELC) with the Technical Specification for Interoperability (TSI) certificates for the Rolling Stock (RST) subsystem and the Control-Command and Signaling (CCS) subsystem of its fully electric hybrid locomotive.

The 15th International Solar Photovoltaic and Smart Energy (Shanghai) Conference(SNEC 2021) and Exhibition concluded on June 5. With smart centralized photovoltaic solutions, CRRC stands out from nearly a thousand enterprises and has won the gold medal of gigawatt in SNEC exhibition, which has brought the exhibition to a successful end.

Innovations change the world: This motto drives the more than 10,000 employees of CRRC Zhuzhou Locomotive Co. Limited (CRRC ZELC). CRRC ZELC was founded in 1936, with 83 years of railway equipment manufacturing and maintenance experience until today, CRRC ZELC is known as "The Capital of Electric Locomotives" and the birthplace of China's EMU Technology.

The 4500V/5000A IGCT-Plus device for DC power grid developed by Tsinghua University and Zhuzhou CRRC Times Electric Co., Ltd. (hereinafter referred to as "CRRC Times Electric") has passed the appraisal successfully, marking that the new generation of domestic large capacity IGCT device has transferred from technology research and development ...
