

Energy storage assembly engineer job content

As more and more clean energy assets are deployed, the ability to store their intermittent output becomes increasingly vital. The International Energy Agency (IEA) estimates that to support COP28 pledges to triple worldwide renewable energy capacity to 11TW by 2030, energy storage will need to increase sixfold.

Principal Battery Systems Design Engineer Location: Arlington VA (or flexible) ABOUT FLUENCE Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses.
