Rather than looking for large, costly homes to purchase and rent, finding used shipping containers for sale in Portland and renovating them into charming tiny homes has become a popular new trend. However, as the property owner, you would need to ensure that you have the necessary permits and comply with local regulations for short-term rentals.

We are here to help you make a purchase decision and stock containers from 10ft in length to 45ft in length in various door configurations. See product catalog below and call us direct if you have any questions at 866-614-4436.

Yes, it is possible to build a shipping container home in Oakland, California. California is one of the states that allow shipping container homes as long as the project meets the state's building and zoning codes. California is known as one of the most expensive states to build property in; however, its progressive and forward-thinking ideals have encouraged the idea of transforming ...

Haiti faces significant challenges in generating and distributing electricity reliably. The lack of access to affordable and reliable power significantly hinders investment and business development. The majority of electricity is produced using imported fossil fuels.

Haiti has an installed capacity of 250 to 400 Megawatts (MW) but only 60 percent of it is reliable. Many generation units and grid elements need rehabilitation and repair work. The distribution network has not been rehabilitated for more than 40 years.
