A proposed carbon capture, storage and transport project in the Humber region could unlock billions of pounds of investment and help the UK meet its ambitious net zero goals, according to Harbour ...

Harbour also today welcomed news that the Acorn S project in north east Scotland had also been awarded two additional storage licences. Harbour has a 30 per cent non-operated interest in Acorn, which is operated by lead developer Storegga. Steve ox, Harbour Energy Executive Vice President of Net Zero and S, said:

Drax Group (Drax) has agreed a memorandum of understanding (MoU) with Viking CCS, the Humber-based CO₂ transportation and storage network led by Harbour Energy, together with non-operated partner bp, to assess options to transport and store CO₂ in the Humber region.. The MoU will see the companies work together on an early pipeline study to ...

Following its first storage licence award in 2018, Acorn was also granted licences from the UK North Sea Transition Authority in 2023. The licences were awarded for the Acorn East and East Mey CO₂ stores, expanding its transport and storage system's capacity deep beneath the North Sea to around 240 MtCO₂. The Scottish Cluster

Harbour Energy today Friday 15 September announced it has been awarded four carbon storage licences by the North Sea Transition Authority (NSTA) as part of the UK's recent CO₂ storage licensing round. Harbour, as operator of the Humber-based Viking CCS CO₂ transportation and storage network together with its non-operating partner bp, have ...

Energy Reports, 2023;9:447-454. Energy Reports can be contacted at: Elsevier, Radarweg 29, 1043 Nx Amsterdam, Netherlands.

New report outlines pivotal role Viking CCS cluster can play in transforming the Humber through carbon capture and storage. 14 March 2023: Harbour Energy today issued a report setting out the significant

economic benefits the Viking CCS CO₂ transport and storage project can unlock in the Humber region. The Viking CCS cluster is positioned to transform the ...

9th of March 2023. This week it is announced that ERCE has completed Europe's first public independent report of its kind, as Harbour Energy books CO₂ storage resources in accordance with the SPE Storage Resource Management System (SRMS). Alongside this news, ERCE also launches its new single masterbrand, today.. Delivered by our Climate & Sustainability division, ...

Led by Harbour Energy, with partner BP, Viking CCS (formerly called V Net Zero) is a CO₂ transport and storage network located in the Humber, the UK's most industrialised region. Viking CCS is targeting a reduction of 10 million tonnes of UK emissions per annum by 2030 and up to 15 million tonnes by 2035. The project is central to establishing ...

Arnprior BESS Limited Partnership (the "Proponent"), a controlled subsidiary of PR Development LP (the "Qualified Applicant"), an affiliate of Potentia Renewables Inc., is proposing to construct the Arnprior Battery Energy Storage Project ("Arnprior BESS" or the "Project") in the City of Ottawa. The proposed Project is a lithium-ion battery energy storage facility sized to ...

Harbour Energy plc ("Harbour" or the "Company") Viking CCS project awards front end engineering design contract 31 January 2024. Viking CCS, the Humber-based CO₂ transportation and storage network led by Harbour Energy [together with partner bp], today announced that Technip Energies has been awarded the Front-End Engineering Design ...

Harbour Energy manages the decommissioning of oil and gas fields that have ceased production, ensuring safe and environmentally responsible closure. Carbon Capture and Storage (CCS) The company is involved in carbon capture and storage projects, aiming to reduce greenhouse gas emissions and support its Net Zero 2035 goal.

Harbour Energy is the largest London-listed independent oil and gas company. We have a leading position in the UK as well as interests in Indonesia, Vietnam, Mexico and Norway. Our strategy is to continue to build a global, diversified oil and gas company focused on safe and responsible operations, value creation and shareholder returns.

Projects need city support. City staff told councillors these battery energy storage systems are an “emerging technology” that would help stabilize the grid and support council's goals for ...

It is set to be used as a powerful independent tool as Harbour Energy progresses its future-looking Viking CCS Project. This achievement marks a crucial step forward in Europe's progress towards supporting low-carbon economies, and to hitting Net Zero targets in 2050.

Harbour Energy has a 60% operated interest in the Javstjerne CO₂ storage licence. Harbour Energy acquired its interest in Havstjerne through its acquisition of the Wintershall Dea asset portfolio in 2024. Havstjerne is located in the southern part of the Norwegian Sea, approximately 100 km southeast of Egersund and in close proximity to ...

ERCE has completed Europe's first public independent report of its kind, as Harbour Energy books CO₂ storage resources in accordance with the SPE Storage Resource Management ...

The transaction is expected to be completed in the fourth quarter of 2024. As part of the transaction, the previous owners of Wintershall Dea, BASF and LetterOne will receive shares (39.6% and 14.9%, respectively) in Harbour Energy as payment.

The electricity storage suitable for harbour environment is battery banks, electric vehicles (storing the energy in the batteries) and flywheels. The storage of heat in a harbour environment could ...

Harbour Energy responds to the UK Government announcement on CCS emitter sequencing. Application for Viking CCS onshore CO₂ transportation pipeline accepted for examination by Planning Inspectorate. Harbour's Viking and Acorn CCS projects awarded Track 2 status. Find out the latest news from Harbour Energy.
