

In order to further strengthen and enhance the leading position of Alpha ESS Nantong Co., Ltd. (hereinafter referred to as AlphaESS) in the energy storage industry chain, on April 25, 2019, the company and Jiangsu Hengtong High-voltage Cable Co., Ltd. (hereinafter referred to as Hengtong High Pressure) signed a collaboration agreement and jointly ...

On 5th of January 2016, Hengtong completed shareholding transfer with PT Voksel, and by then formally held 30.08% of PT Voksel Electric Tbk. According to new information, Hengtong Optic-electric Co.,Ltd. Initialed full investment, and had management & technical team stationed at PT Voksel.

Hengtong Energy's self-developed commercial and industrial energy storage system has more discharge capacity throughout its life cycle, effectively reducing its total life cycle investment costs, thus having a high return on investment. The system adopts a modularized, standardized, and intelligent design concept, which makes it easy to transport and install, thus effectively ...

An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was successfully connected to the grid ...

Hengtong Utility Storage System is mainly used in scenarios with power ratings of 30 kW or more, including but not limited to demand-side management, dynamic expansion, utilization of renewable energy, demand response, trading in the electricity spot market, off-grid or grid-connected applications, peak shaving and valley filling, smoothing output, reducing congestion ...

On 28th, June, 2017, the world-famous Mobile World Congress 2017 had its grand opening in Shanghai New International Expo Center (SNIEC). Hengtong Group, as a global information and energy network service provider well-known in China's optical communication industry, brings its latest products and solutions in the submarine field, receiving wide attention ...

Energy storage is the capture of heat or electricity produced at one moment in time for use at a later date when it is not so readily available. It results in on-demand power which may not be possible for instance from a renewable source such as the sun and wind. A storage device is generally called an accumulator, thermal store or battery.

This product is mainly used for fast charging of electric vehicles. It integrates charging, billing, payment, communication, and data collection functions into one system. The user-friendly interface display and operation guidance make it easy for users to complete the charging process quickly and easily.

Hengtong Energy's lithium iron phosphate high-voltage DC energy storage system is mainly used in energy storage applications such as new energy generation side, user side, power grid side, and shared energy storage. The system scheme is designed based on a single energy storage unit of 1.86MW/3.72MWh, using an outdoor

Hengtong new product energy storage

cabinet structure layout and a DC side maximum ...

Founded in 1991, HENGTONG GROUP now has more than 50 wholly-owned and holding companies, including 3 public companies. As a global cable industry leader, HENGTONG provides customers with the most complete cable and system solutions, and even EPC service. Products include telecom and power cables.

In the face of extreme environmental challenges, Hengtong developed a new type of power transmission material that enhanced current-carrying capacity by 14%, ensuring reliable power transmission in harsh conditions. The project is expected to provide 223.7 million kWh of clean energy annually, saving 75,300 tons of coal equivalent and reducing ...

Hengtong provides system integration solution services in the fields of intelligent buildings, rail transport, new energy vehicles, wind power, oil and gas, energy storage and charging, etc. By promoting the connectivity, security and reliability of the wind-solar-storage-charging new type grid, Hengtong forges itself to be a global service ...

Hengtong Residential Energy Storage System is a new hybrid energy storage system based on lithium iron phosphate batteries and equipped with a customized battery management system ...

"Let every electric vehicle run freely, and let every family breathe freely" is the motto of Hengtong Energy storage's EV charger. After years of development, the company has accumulated a charging volume of 10.2 billion kWh, accumulated carbon emissions of 339,000 tons, and accumulated fuel savings of 370 million liters. Hengtong Energy storage has two self-developed ...

An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology succeeded in reverse power transmission and was successfully connected to the grid on the first attempt.

Jiangsu Hengtong Energy Storage Technology Co., Ltd. is a wholly-owned subsidiary of Hengtong Group, established in 2019. The company has always been customer-centric, providing customers with "safer, more efficient and less carbon emission intelligent energy storage products". At the same time, focusing on renewable energy and virtual power plants, the ...

Hengtong attended and exhibited at the All Energy 2023 tradeshow, held in Melbourne at the MCEC on the 25th and 26th of October. It was a great event attended by a range of contractors and suppliers alike. With a full range of power cable products displayed, Hengtong introduced its solutions and options available to the renewable energy space.

Hengtong completed the construction of the world's first and leading State Grid Changi-Guquan 1100kV UHV DC transmission project; Hengtong built the world's first high-voltage, large-span, ultra-low loss OPGW product system; Hengtong ...

Hengtong new product energy storage

Such improvements solidify Hengtong's products as reliable alternatives in the competitive market of energy storage solutions, setting new benchmarks for safety and environmental sustainability while meeting the rigorous demands of ...

SUZHOU, China, June 22, 2020 /PRNewswire/ -- An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was ...

SUZHOU, China, March 1, 2024 /PRNewswire/ -- From February 26th to 29th, with the theme of "Enlightening the Green Future", Hengtong showcased its latest technologies and product solutions in the fields of 5G& 5G technology, ODN and intelligent lithium battery at MWC 2024 Barcelona, Spain. Optical Transceiver Solutions . Hengtong is committed to the design and ...

The 48V100Ah intelligent lithium battery, developed and produced by Hengtong Energy Storage Technology Co., Ltd., is primarily utilized in telecommunication base stations as a backup power source to guarantee the stable operation of communication equipment.

The 100kW/233kWh commercial and industrial liquid-cooled energy storage system adopts an "All in One" design concept, integrating long-life cells, battery management system (BMS), high-performance bi-directional inverter (PCS), energy management unit (EMU), liquid cooling system, fire protection system, and distribution system into a single cabinet, forming a standardized, ...
