Demand for energy storage is on the rise. The increase in extreme weather and power outages also continue to contribute to growing demand for battery energy storage systems (BESS). As a result, there are many questions about sizing and optimizing BESS to provide either energy, grid ancillary services, and/or site backup and blackstart capability.

There are plenty of options for those who like the unique architecture and functionality of a Conex home but lack the imagination and building skills to create their own outside-the-box design. There are shipping container home design companies specializing in designing and building Conex container homes and offering customers various basic floor plan ...
