

# Italian energy storage system project bidding

Italy's storage targets Italy's target for the share of renewable electricity by 2030 55% Utility-scale 3-4 GW Customer-sited 4.5 GW Italy's NECP targets between 7.5 GW and 8.5 GW of energy storage by 2030, of which 4.5 GW is expected to come from customer-sited storage systems.<sup>24</sup> The remaining 3-4 GW is expected to come from

Capacity market (CM) auctions have concluded in Italy and Belgium and battery energy storage system (BESS) projects won the lion's share of new contracts. Saudi Arabia begins qualification for 8GWh battery storage tender. November 6, 2024.

The transacted vehicle will see through the construction, ownership and operation of a portfolio comprising 23 battery energy storage system (BESS) projects as well as three renovations of open cycle gas turbine (OCGT) plants totalling 0.9GW. The deal is part of Enel's partnership business model outlined in its business plan for 2024-26. Enel has been a first ...

Matteo Coriglioni, head of Aurora Energy Research Italy, said official data showed that as of the end of March, Italy had approved more than 2GW of energy storage projects, with another 8GW in the approval process. Aurora Energy Research has a very broad pipeline of energy storage capacity, which is four times what has been approved.

Tunnel work restarted for Snowy 2.0 pumped storage project ABB and Gravitricity partner on gravity energy storage systems. The beneficiaries will be selected through a bidding process, where storage developers will compete based on offers relating to the lowest amount of aid requested per offered capacity volume.

The unique feature of the Italian mechanism is that Terna (as system operator) will directly: Determine system storage capacity requirements (GWh) Tender for that capacity via auctions for long term contracted revenue support. Terna published its analysis of 2030 requirements for storage in 2022.

The owner of the project is Trinasolar's International System Business Unit (ISBU), its global project development. The standalone BESS will support grid stability and also do wholesale energy trading. The project has a contract with Italian transmission system operator (TSO) Terna to provide the Fast Reserve ancillary service for 1,000 annual operation hours, ...

Paris, 20 October 2023 - NHOA Energy, the company of NHOA Group (NHOA.PA, formerly Engie EPS) dedicated to energy storage, announces that it has been selected as turnkey ...

At the end of 2022, BESS projects were included in the bidding for energy projects in Poland for the first time. In January 2024, the Polish Energy Regulatory Office announced the results of the energy storage tender, and Greenvolt became the biggest winner of the bidding, winning 6 projects with a total of 1.2 GW.

# Italian energy storage system project bidding

Transmission system operator (TSO) Terna estimates Italy will need 9GW/71GWh of new energy storage to integrate its growing renewables pipeline, an average duration of just under 8 hours. That duration will be split between battery energy storage system (BESS) and select pumped hydro energy storage (PHES) projects, though even on the BESS ...

In a recent Energy-Storage.news Premium interview, Franck Bernard, the energy storage head of developer Gurin Energy said that the Japanese BESS market is ready for scale-up, with the company planning to begin building a 500MW/2,000MWh project in the country in 2026. Read more of Energy-Storage.news" coverage of Japan.

The planned storage capacity will come from 20 projects selected by Italian grid operator Terna through the latest capacity market auction. Half of them will be located on the ...

Altea Green Power contacted Energy-Storage.news after publication to clarify that it would only be developing the projects and that the client that acquired them would be the one to build them. Developer Altea Green Power has launched four battery energy storage system (BESS) projects in Italy, totalling 1GW of capacity.

Rome - July 4, 2023 - Matrix Renewables ("Matrix"), the TPG Rise-backed global renewable energy platform, today announced that it has started a partnership with Gravel A through a proprietary Development Service Agreement (DSA) for the development of up to 1.5 GW of standalone Battery Energy Storage Systems (BESS) in Italy. The first stage of this partnership ...

The five battery energy storage system (BESS) projects are all in the southern region of Apulia, where solar PV will be the dominant renewable energy source going forward making load shifting a significant part of the business case for energy storage. ... Capacity market (CM) auctions have concluded in Italy and Belgium and battery energy ...

Greek industrial group Mytilineos SA said it won two contracts for 26 MW of energy storage in Italy's fast reserve auction held in early December las. ... The contracts were for the 20-MW Brindisi battery energy storage system (BESS) in southern Italy and the 6-MW Sassari unit in Sardinia, which will provide fast reserve grid services for ...

EP Produzione will build 170 MW of battery energy storage systems with a two-hour storage duration at two sites. One project will be located at the company's Fiume Santo coal-fired power plant in Sardinia, originally set up in the 1960s.

Italy is launching a state aid package of EUR 17.7 billion for the establishment of a centralized electricity storage system. The scheme is for developers of eligible projects to ...

# Italian energy storage system project bidding

Enel for example won 2024 capacity market contracts for around 1GW of battery storage in auctions in early 2022. It hasn't revealed the BESS technology provider or system integrator for those projects, but used Fluence for previous Italy projects for which it was awarded ancillary service contracts.

After winning clearance in Brussels, Italy can now select companies developing electricity storage projects eligible for subsidies. The mechanism is set to cover investment and operating costs through annual payments.

The planned storage capacity will come from 20 projects selected by Italian grid operator Terna through the latest capacity market auction. Half of them will be located on the island of Sardinia.

Battery storage projects from Hynfra Energy Storage and OX2 totalling 130MWh have won contracts in energy auctions in Poland this week. A capacity market auction for 2027 from transmission system operator Polskie Sieci Elektroenergetyczne (PSE) closed at PLN 406.35/kW/year (US\$93) and handed out long-term contracts to energy resources.

How to frame BESS investment cases & MACSE bidding strategies. Terna storage demand underpinned by new policy release. On 1 st October 2024, the Italian TSOs Terna and Snam jointly published a new document outlining the expected Italian energy system evolution to 2040. This document is called "Documento di Descrizione degli Scenario 2024 ...

In 2023, residential energy storage continued to dominate Italy's energy storage landscape, representing the largest application scenario for newly added installations. Residential PV systems retained their prominence, accounting for 82% and 73% of new installations, followed by utility-scale storage and commercial & industrial (C& I) energy ...

Giuseppe Artizzu, CEO of NHOA Energy, told Energy-Storage.news in a recent interview that the de-listing, amongst other things, will enable it to bid for larger projects. NHOA Energy is the energy storage arm of Italy-headquartered NHOA, which is also active in the electric vehicle (EV) charging infrastructure space through separate business ...

Capacity market (CM) auctions have concluded in Italy and Belgium and battery energy storage system (BESS) projects won the lion's share of new contracts. Leading the charge: the crucial role of battery energy storage on the road to net zero. November 6, 2024.

In June 2023, the regulator ARERA approved new criteria and conditions for large-scale energy storage capacity auctions to be run by Terna (Energy Storage News, 2023). ... including energy storage systems. Italy also plans to earmark EUR675 million for offshore wind projects that use energy storage (E3 Analytics, 2023). ... Spain-based Powertis ...

# Italian energy storage system project bidding

Mytilineos announced on Tuesday that its Renewables and Storage Development (RSD) Business Unit, has landed a new storage system capacity contract in the 2024 Italian Capacity Market Auction that will expand its pioneer position in the development, engineering, and construction of Battery Energy Storage Systems (BESS).
