

Jolywood business park energy storage

Jolywood is expecting to face stiff competition from other module manufacturers in the n-type solar field, predicting a major manufacturing ramp and investment over the next ...

Jolywood (Suzhou) Sunwatt Co. Ltd. (SZ: 300393) (Jolywood), the world's leading supplier of N-type high efficiency bifacial solar cells and modules, was a key participant in the 2018 Belt and Road Energy Ministerial Conference and International Forum on Energy Transition ("the Conference") to discuss energy cooperation and the future of ...

The China Academy of Metrology and Science has certified Jolywood's 26.7% efficiency rating for an n-type tunnel oxide passivated contact (TOPCon) solar cell, which the company claims is a world record. In November 2022, it announced a 26.1% efficiency rating for a similar cell.

Jolywood's n-type cell capacity is now over 2GW, and the company has also achieved the highest TOPCon efficiency in terms of mass production. TOPCon technology has drawn considerable attention from the industry due to its recent application in Chinese Top Runner projects located in Sihong, Baicheng, Zhangjiakou and other locations in the country.

With its commitment to TOPCon greater than any other company, Jolywood has gradually built up its advantage in this field through six years of development and patent accumulation. Jolywood's n-type cell capacity is now over 2GW, and the company has also achieved the highest TOPCon efficiency in terms of mass production.

From July 10th to 11th, Solar & Storage Live Vietnam 2024 was held at SKY EXPO in Ho Chi Minh City. As a leader in n-type TOPCon technology, Jolywood Solar showcased the high-efficiency ...

jolywood business park belongs to the energy storage industry State of the U.S. Energy Storage Industry: 2022 Year in Our annual lookback at the year in energy storage covers advances in the U.S. market, including deployment trends, policy and regulatory updates; the state of ...

Jolywood will continue on its own path in developing n-type technology, from N-PERT to N-TOPcon, and then on to n-type TBC and n-type TBC with perovskite. "The cell business is doing well now, and this year many companies engaged in the p-type field have also turned to n-type R& D and manufacturing.

Founded in 2008 and publicly listed in 2014 (Stock code SZ300393), Jolywood is a state-level high-tech enterprise specializing in the R& D and manufacture of solar power products and associated technology.

While the N-TOPCon production line Jolywood built in earlier years cost as much as RMB1 billion (US\$150 million) per GW, the investment for the same today has fallen to RMB200 million (US\$30 million). Lin continued: "The investment on the first GW of N-type was around 0.7-1 billion, even more expensive than
