Our body harnesses are designed to keep you safe and upright in the event of a fall when working at height. These full-body harnesses distribute your weight and the force generated by the fall evenly, which reduces your risk of injury. Our safety harnesses offer complete support without hindering or restricting your range of movement.

A large barrier is the high cost of energy storage at present time. Many technologies have been investigated and evaluated for energy storage [22]. Different storage technologies should be considered for different applications. Two key factors are the capital cost invested at the beginning, and the life cycle cost.
