

With the latest announcement involving IDO Investments, Oman Investment Authority has effectively expanded its portfolio of investments in global tech startups focused on clean energy and climate tech initiatives. Last October, OIA announced an investment in Group14, a US company manufacturing trailblazing battery materials.

Energy storage can increase the penetration of intermittent resources by improving power system flexibility, reducing energy curtailment and minimising system costs. By the end of 2018 the global capacity for pump hydropower storage reached 160 GW whereas the global capacity for battery storage totalled around 3 GW (REN21 2019).

Cost: The initial investment required for setting up solar power projects can be a significant barrier. However, with advancements in technology and decreasing costs of solar panels, the overall cost of solar energy production has significantly reduced in recent years. This trend makes solar energy increasingly financially viable in Oman.

None of the projects has reached financial investment decision so far, with pre-front-end engineering and design (feed) work and offtake negotiations still under way. ... tells the ongoing Oman Green Hydrogen Summit in Muscat. "Hydrom offered three blocks for auction in the Dhofar region. ... the newly launched energy storage programme enables ...

MUSCAT: OQ Alternative Energy, the green energy investment unit of OQ Group, says it has plans to develop a portfolio of renewable energy projects with a total capacity of around 2 gigawatt (GW) to support the clean energy needs of Oil & Gas companies, as well as industrial zones, operating in the Sultanate of Oman.

Poised to be the first of its scale in the Middle East. SOHAR, Oman, March 18, 2024 /PRNewswire/ -- United Solar Holding Inc. announces the laying of the foundation stone for its polysilicon factory in SOHAR Port and Freezone (SOHAR), Sultanate of Oman. The USD 1.35 billion landmark project is set to be one of the world's largest and the Middle East's first with an ...

A Royal Decree has ordered the establishment of a new state-owned energy company named Energy Development Oman which will own a shareholding in Petroleum Development Oman (PDO) and an interest in the sultanate's largest oil concession area -Block 6. The company can also borrow or raise money. The authorised and issued share capital of the ...

Reviewing the status of three utility-scale energy storage options: pumped hydroelectric energy storage (PHES), compressed air energy storage, and hydrogen storage. Conducting a techno-economic case study on utilising PHES facilities to supply peak demand in Oman.

Muscat energy investment energy storage project

MUSCAT: IDO Investments, the venture capital arm of Oman Investment Authority (OIA), is among a number of international companies to have invested in Energy Dome, an Italian-based tech start-up behind the revolutionary CO2 Battery - an energy storage system that makes solar and wind power despatchable 24/7.

Financing and transaction costs - at current interest rates, these can be around 20% of total project costs. 1) Total battery energy storage project costs average \$580k/MW. 68% of battery project costs range between \$400k/MW and \$700k/MW. When exclusively considering two-hour sites the median of battery project costs are \$650k/MW.

Spreading the investment across 58 projects in 44 US states and paid for through the Bipartisan Infrastructure Law, the initial disbursement will lead to the deployment of more than 35GW of additional renewable energy capacity and 400 separate microgrids, according to the Department of Energy (DOE).

Muscat - The Duqm Refinery Project, a joint venture between Oman's global integrated energy group OQ and Kuwait Petroleum International, with an investment cost of approximately \$9bn, has positioned itself as a key player in the global energy market.

Power-to-Gas and Hydrogen Energy Storage for a 100. In particular the dynamic dispatch, massive energy storage capacity, and ubiquitous transmission and distribution of energy that the power-to-gas and hydrogen energy storage ... Feedback >>
