The movement is from a Bvlgari Aluminum 40mm rep. It's supposed to be a decorated mov SW300 movement (slimmer than SW200) My TD sent this to me and I love the design, what are your thoughts on the movement? The real watch has the equivalent ETA 2892 version (rebranded to Calibre 77 by Bvlgari), for which the SW300 is the "Swiss authorized clone ...

The SW300-1 spec sheet was revised in December 2020 and the typical PR was updated from 42 to 56 hour (50 minimum). Tech notice #25 for the SW300-1, issued December 2020, notes that a new barrel assembly was introduced and that is why PR increased. ... Do you know if this fits the SW200-1 movement as well? Wondering if that is possible to ...

Manufacturer Sellita Caliber Number SW300, SW300-1 Clone Of ETA 2892-A2 Movement Type Automatic, self-winding mechanical Lignes 11.5"" Diameter 25.6mm Height... Automatic. 58 46. Join our mission to spread movement awareness! ...

Currently, the SW300 is only available in one variation and is a copy of the ETA 2892 movement, with 25 Jewels instead of 21 Jewels. Everything else is virtually identical. ...

IWC version of Sellita SW300-1, presumably developed and constructed by Sellita, according to IWC specification, like the 35111. All watches using the IWC 35100 movement: IW3248-01 IWC Pilot's Watch Mark XVIII Hodinkee

Amazing power of the Brand and Logo here....the IWC MK XVIII watch comes straight from their factory with the Sellita SW300 movement. Nice watch and great movement. BUT.....the price is North of \$4,000. You can get a beautiful Stowa Flieger watch (or a Damasko) with the same movement for a third of this price.....and they are really high ...

The SW300 family consists of just three movement models with three simple complications: Date wheel, 24 hour hand, and small seconds. These movements are widely used, however, especially Cal. SW300-1, now that ETA has restricted sales of the similar Cal. 2892A2.

The STP1-11 movement uses a longer and thinner mainspring compared to the Sellita sw300, resulting in a boosted power reserve of 44 hours. The Sellita sw300 has a power reserve of 38 hours. While the difference may not be significant, the STP1-11 provides an extra quarter of a day of power reserve, making it a better choice for watch ...

The SW300 family consists of just three movement models with three simple complications: Date wheel, 24 hour hand, and small seconds. These movements are widely used, however, especially Cal. SW300-1, now that ETA has restricted sales of the similar Cal. 2892A2.. Note that Sellita SW300 movements have four more jewels than their ETA 2892-based ...

Hey all. I recently acquired a new watch that has a SW 300-1 based movement. Aside from the fact that it runs slow in any position with a full wind (which is annoying but not necessarily outside of spec), the watch when fully wound down and stopped will not start again unless I shake it.

Sellita Movement, SW300-1: Date at 3. Sellita's version of ETA 2892.A2 Click on large image to zoom: Click on image to see larger/zoom. Date at 3. Sellita's version of ETA 2892.A2 . Product Code: SW300-1. In Stock: 9 (stock levels as of 8pm Central) & nbsp;Previous | Next > ...

The Sellita SW330-2 is a Swiss made automatic watch movement with a second time zone display via a centrally located GMT hand. This caliber is a member of the SW300 family of movements that are based on the ETA 2892-A2 framework. The SW330-2 is an update to the original SW330 which was based on the 2893-2 (2892-A2 with a GMT module). At the time of ...

SW300-1 a, D4 (luxurious decoration), rhodium, blued screws. These are excellent, robust movements. Well proven to be reliable, trouble free and relatively accurate. ... The movement is derived from the Sellita SW-300. Coupled with an equally stunning blue dial with orange accents, with the usual Bell & Ross superb legibility (both in good and ...

No Base Caliber Sellita SW300-1 Movement Type Automatic, self-winding mechanical Lignes 11.5""... Automatic. 0 2. ETA Caliber 2896. Manufacturer ETA Caliber Number 2896 Base Caliber ETA 2892A2 Movement Type Automatic, self-winding mechanical Lignes 11.5"" Diameter 25.6mm Height 4.85mm... Automatic. 0 11.

With its hour, minute, seconds and date functions, the SW 300 Calibre from Sellita is further proof of the reputation for reliability that the brand has forged in its position as ...

TL; DR: Zowel de STP1-11 als de Sellita sw300 zijn Zwitserse uurwerken van hoge kwaliteit. De STP1-11 beschikt echter over een langere gangreserve, betere nauwkeurigheid, een extra juweel en afwerking van superieure kwaliteit, waardoor het de superieure keuze is voor horlogeliefhebbers. Powerreserve Het STP1-11-uurwe

SW360-1 is a clone of ETA's Cal. 2895-2, a rarely-seen automatic movement with date and small seconds. This is used by TAG Heuer as their Calibre 6. Although internal documents are dated 2014, the first public mentions of SW360-1 come two years later. Sellita's final member of the SW300 family is a clone of ETA's GMT movement, Cal. 2893-2.
