

Uk solar energy storage exhibition

Over 400 exhibitors from around the world will be present at this year's free-to-attend exhibition, including SolarEdge Technologies which will be debuting its latest technological advancements at SSL23 from stand C8. Residential Solar

If the UK is to spearhead efforts to reach net-zero and achieve the amount of solar required to meet the 2035 target (up to 70GW installed PV), then streamlining, communication, and collaboration are absolutely essential!

Solar & Storage Live UK is the UK's largest solar energy exhibition, featuring over 500 global exhibitors showcasing thousands of innovative solar products and solutions. More than 250 expert speakers will provide insights on leading solar ...

"At Solar & Storage Live, SolarEdge will demonstrate its leadership in this transition by unveiling new innovations in hardware and software -designed to deliver even more power and greater cost savings to our customers."

There's a rejuvenated feeling in the UK solar market where a new government is making positive signals and considering key policy changes aimed at speeding up project commissioning. For storage, there's still serious interest in utility-scale deployment with some significant projects in the pipeline.
