

# Why basf entered the energy storage industry

Die Firma BASF Stationary Energy Storage GmbH wird im Handelsregister beim Amtsgericht Ludwigshafen a.Rhein (Ludwigshafen) unter der Handelsregister-Nummer HRB 4660 gef&#252;hrt. Die Firma BASF Stationary Energy Storage GmbH kann schriftlich &#252;ber die Firmenadresse Benckiserplatz 1, 67059 Ludwigshafen erreicht werden.

In 2023, we built a stationary long-term sodium sulfur-based storage system (NAS &#174;) at our Schwarzheide site in Germany. It supports the power supply of individual systems via the plant's own solar park. Together with NGK Insulators Ltd., BASF Stationary Energy Storage GmbH makes NAS batteries and develops them further.

Since then, Energy-Storage.news has reported on various projects announced by both NGK and BASF, including a 3.6MWh NAS battery for Mongolia's first solar-plus-storage project, a 950kW / 5.8MWh system at a BASF production facility in Antwerp, Belgium, and various deployments in Japan and South Korea.

BASF's recently-created subsidiary is focused on finding new areas for the German chemical company to diversify into that nonetheless relate to its core business activities. BASF New Business (BNB) has a distribution and sales deal in place with Japan's NGK for the NAS batteries. The pair entered into the partnership in 2019.

The collaboration will see BASF, an industry-leading producer of battery materials, develop cathode active materials from recycled metals in Battle Creek, Michigan. These recycled battery materials will then be used to produce new lithium-ion batteries by Nanotech Energy - experts in graphene-based energy storage products.

Germany - NGK INSULATORS has received an order from BASF Stationary Energy Storage (BSES), a subsidiary of BASF, for NAS Batteries for a large-scale green hydrogen production project, developed by HH2E, a German green hydrogen producer.. The NAS batteries that have been ordered have a maximum output of 18 megawatts and a capacity of ...
